CAMPING AT THE AIRPORT

Tenting by your tiedown on the airport is available. There is limited motorhome parking with electric hook-up only. We request that air conditioners are not run due to the limited power available. It is available on a first come basis. There are two restrooms and showers in the Club House that can be used for those staying at the field. We ask that you use the showers in the evening so that the club house is available for the contest staff in the morning.
